## Environmental Management Systems

**"UKRTRUBOIZOL"**

LIMITED LIABILITY COMPANY

SCIENTIFIC-PRODUCTION ENTERPRISE WITH FOREIGN INVESTMENTS

Ukraine, 51217, Dnipropetrovskiy region, Samarivsky district,  
village Meliorativne, St. Zavodska, bldg. 2  
Code 31017014

*Certification body "CERTSYSTEMS" confirms that the environmental management systems (EMS) of the aforementioned organization is verified and complies with the requirements of the international standard*

**ISO 14001:2015 «Environmental management systems.  
Requirements and guidance for use»  
INTERNATIONAL STANDAR**

Certification scope:

Production and distribution of pipeline systems, pipes, shaped products, fittings and valves for gas pipelines, water supply, sewage, drainage, heat supply and building communications

Date of Certification: 05.06.2025

Date of Expiry: 05.06.2028

Subject to annual approval:

2026 – till 05.06.2026

2027 – till 05.06.2027

The validity of the certificate is verified using a QR code or on the website [euro-cert.net](http://euro-cert.net)

Head of Certification body

Y. Petrov

Registered in the Certification System Registry  
EUROCERT SYSTEM  
certificate № ECS.UA.02.5002 dated 05.06.2025

# ANNEX №1

to the certificate № ECS.UA.02.5002 dated 05.06.2025

***List of industries to which the  
management system applies (ISO 14001):***

1. Production and distribution of pipes and shaped plastic products:
  - polyethylene pipes (PE 80, PE 100, PE 100-RC) for: construction of gas pipelines, cold water supply networks (including domestic and drinking); pressure and non-pressure, sewage systems; cable sewage, drainage, water drainage; ventilation systems and rainwater drainage systems.
  - polyethylene pipes (including coextruded with protective and cleaning layers).
2. Production and distribution of pre-insulated pipeline systems:
  - steel pipes and fittings for them: thermally insulated with foamed polyurethane (PU) and/or polyurethane based on a composition with cyclopentane; with a protective sheath of galvanized steel or polyethylene; for construction and reconstruction of hot water supply networks and heating networks.
  - shaped products (elbows, bends, tees, compensators, end elements), shut-off valves in thermal insulation.
  - kits for insulation of end connections, protective sheaths made of polyethylene and steel of the SPIRO type.
  - flexible plastic pipes based on structured polyethylene PE-Xa for cold and hot water supply networks, insulation - foamed polyurethane.
